30. CONFLICTS OF INTEREST

- 30.1. The Client should realize that when the Company deals with or for the Client, the Company, its Associates or other persons connected with them may have an interest, relationship or arrangement that is material in relation to any Transactions of the Client effected under this Agreement or that conflict with the interests of the Client. Such situations include without limitation the following examples:
 - a. When the Company is acting as a principal, the Company will be acting as the Client's counter party and hence the Company may be placed in such a position that a conflict of interest situation with the Client is created.
 - b. When dealing in CFDs as a principal, the Company will be selling to or buying the CFD from the Client and may hold Long or Short Position.

- c. The Company may match the Client's Transaction with that of another client by acting on such other client's behalf as well as on the Clients behalf.
 - d. The Company may provide investment advice and other investment services to other clients whose interests may be in conflict or in competition with the Client's interests.
 - e. The Company, its Associates and the employees of any of them may take positions opposite to the Client or may be in competition with the Client to acquire the same or a similar position.
- 30.2. The Company as a principal may enter into offsetting Financial Instruments for its own account with other counterparties and such offsetting may result that prices offered by the Company to the Client may differ from that quoted to the Company by other counterparties. The Company is under no obligation to disclose such price(s) to the Client.
- 30.3. By entering into this Agreement the Client consents that the Company shall have no liability for failure to execute order/request(s) and that the Company makes no representations, warranties or guarantees of the Client's order/requests' s priority over the order/request(s) of other clients.
- 30.4. By entering into this Agreement the Client consents to the Company dealing with or for the Client in anymanner which the Company considers appropriate, despite any conflict of interest or the existence of any material interest in a Transaction, without prior reference to him.
- 30.5. The Company will not deliberately favour any person or other client over the Client but will not be responsible for any loss, which may result from conflict or competition between them.
- 30.6. Under the Law, the Company is required to take all reasonable steps to detect and avoid conflicts of interest situations.

31. CLIENT ACKNOWLEDGEMENTS OF RISK AND CONSENTS

- 31.1. The Client unreservedly acknowledges and accepts that:
- a. Trading in CFDs is not suitable for all members of the public and the Client runs a great risk of incurring losses and damages as a result of trading in CFDs and accepts and declares that he is willing to undertake this risk. The damages may include loss of all his money and also any additional commissions and other expenses.
 - b. CFDs carry a high degree of risk. The gearing or leverage often obtainable in CFDs trading means that a small deposit or down payment can lead to large losses as well as gains. It also means that a relatively small movement can lead to a proportionately larger movement in the value of the Client's investment and this can work against him as well as for him. CFDs Transactions have a contingent liability, and the Client should be aware of the implications of this in particular the margining requirements.
 - c. Transactions in futures carry a high degree of risk. The amount of initial margin is small relative to the value of the future contracts so that transactions are 'leveraged' and 'geared'. By a small market movement the Client may sustain a total loss of initial margin funds and any additional funds deposited with the Company to maintain the Client's open position/transaction(s) and if the market moves against the Client or margin levels are increased, the Client may be called upon to pay substantial additional funds on short notice to maintain the Client's open position/transaction(s).

- d. Foreign Exchange can be highly volatile and transactions therein carry a substantial risk of loss. The Client's risk exposure increases if the Client's transactions are denominated in a foreign currency or in a basic currency.
- e. Trading on an electronic Online Trading System and/or Mobile Trading Service carries risks:
- f. Access to Online Service and/or Mobile Trading Service or any portion thereof may be restricted or unavailable during periods of peak demands, extreme market volatility, systems upgrades or any other reason.
- g. The Company or its Service Provider(s) does not warrant that access to or use of the Online Service and/or Mobile Trading Service will be uninterrupted or error free or that the Online Service will meet any particular criteria of performance or quality.
- h. Neither the Company nor any of its directors, officers, employees, agents, contractors, affiliates, third party vendors, facilities, information providers, licensors, exchanges, clearing organizations or other suppliers providing data, information, or services do not make any warranty as to the results that may be obtained from the use of the Online Service and/or Mobile Trading Service or as to the timeliness, sequence, accuracy, completeness, reliability or content of any information, service or transaction provided through the Online Service and/or Mobile Trading Service.
- i. The Company or anyone else involved in creating, producing, delivering or managing the Online Service shall, under no circumstance including negligence, be liable for any direct, indirect, special or consequential damages that result from the use of or inability to use the Online Service and/or Mobile Trading Service, or out of any breach of any warranty, including, without limitation, those for business interruption or loss of profits.
- j. The Client acknowledges full responsibility and risk of loss that may result from use of, or materials obtained through, the Online Service and/or Mobile Trading Service and shall be liable for any loss or damage arising from or occasioned by any inaccuracy, error, delay, omission, non-performance, interruption in any such data, information or message due to either to any negligent act or omission or to any condition of force majeure or any other cause, whether or not within the Company or any Service Provider's control.
- k. The Company is not liable for any losses, lost opportunities or increased costs, increased commissions etc. that may result from the Client's inability to use the Online Service and/or Mobile Trading Service to place order/request(s) for transactions, receive confirmation for transaction or access information, or from the execution of order/request(s) made by the Client.
- l. Liability of the Client under this Agreement shall not, in any circumstance, be limited or mitigated by any failure of the Company to provide training, training material or updates, or notice of change to the trading terms and conditions.
- m. The Online Service and/or Mobile Trading Service is not directed at or intended to be used by any jurisdiction or country where such use and/or distribution would be contrary to local law and/or regulation. It is the Client's responsibility to ensure that using the Online Service and/or Mobile Trading Service would not be in a breach with any local law or regulation to which the Client is a subject to.
